## Regulatory & Administrative Challenges

We're hearing these pain points...

*Flight logs are time-consuming & hard to audit.*

*We don't have an SIS; track our class enrollment manually.*

*Clock-hour tracking is inconsistent; it's hard to track down fixes.*

*RoP/TT estimating is complex & confusing for both staff & students.*

*OJT/APP programs lack VA consistency & clear guidance.*

*Prior credit evals are required but hard to track & maintain.*

4

## Regulatory & Administrative Challenges

Tools in Progress: Informed by Your Work

*Flight logs are time-consuming & hard to audit*

*We*

*Clo*

*RoP*

*OJ*

*Pri*

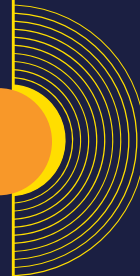

- Flight log + time tracking
- Enrollment tracking w/o an SIS
- Clock-hour alerts to flag inconsistencies
- RoP & TT calculator tools
- Templates & flexible documentation logs
- Tools to track and manage prior credit compliance

5

## Let's Talk About It...

1. What is the hardest part of certifying your programs?
2. Where do you feel unsupported or under-resourced?
3. What tools, templates, or systems would make this easier?

6

8

## Brainstorming

What would make your work easier next year?

9

## MVN 1.0 – Quick Demo

### Key Features

- Certification tracking
- Multi-benefit support
- Powerful queries
- Built-in communication
- Student Portal

10

## MVN 2.0 – What's Coming

- Flight log & time tracking
- Tools for OJT & APP data management
- Enhanced cross-team collaboration features
- Two-way messaging with templates
- RoP and TT calculators
- Saved reports & custom queries
- ...and more!!

11

What's the one  
challenge you  
want to see  
solved next?

12

# Thanks!
